

# > MSc in Microelectronics Technology & Manufacturing Management <

Dear Prospective Applicant,

Please find below further information about the *Masters in Microelectronics Technology and Manufacturing Management* proposed by ST University, the Corporate University of STMicroelectronics, in collaboration with two French Engineering Schools: Ecole Nationale Supérieure des Mines de Saint Etienne (ENSM-SE) and Ecole Généraliste des Ingénieurs de Marseille (EGIM).

## **Delivered Diploma:**

The "Mastère Spécialisé" (Masters Degree) is a recognized label accredited by the French "Conference des Grandes Ecoles".

## **Purpose :**

To provide engineers with broad range of technical and managerial knowledge to become operational in a Semi-conductor manufacturing job.

## **Target audience :**

- Young engineers who need to acquire a specialization in microelectronics technologies and manufacturing management
- People with recognized technical professional experience, needing to upgrade their knowledge with this officially accredited degree
- Staff or prospective employees of companies wishing to train their newly hired engineers, or to prepare students to be hired by them.

## **Curriculum Two paths:**

- Courses start the first Monday of October.
  - 9 months, every other week, followed by, or in parallel with, a 6-month thesis preparation in a company.
  - 18 months, one week per month, followed by, or in parallel with, a 6-month thesis preparation in a company.
- Course modules can be also followed independently as part of continuous education.*

## **Location :**

STUniversity campus in Fuveau, FRANCE close to Rousset plant. (40Km from Marseille).

## **Tuition fees :**

- Students or unemployed persons : 6000 EUROS
- Employees : 12000 EUROS
- Separate modules, per day : 305 EUROS

## **Application forms:**

You can apply to this program if:

- You are student:

You have an engineering degree or a degree equivalent to 5 years of University level studies in a scientific field.

- You are a working professional:

You have 4 years of University level studies plus 3 years of professional experience.

You have academic path and a professional experience which can justify your application to this program. In

this case,

your application will be studied by a special commission.

Applications open until 11 september, 2006.

Application fees are 100 Euros, This payment must be sent by check to STMicroelectronics (Do not send cash).

You will be refunded this amount if your application is refused by the Admission board.

Do not hesitate to contact me for any additional information.

Regards

Olivier MARRONE Program Manager tel: +33 442 535 469 fax: +33 442 535 472 e-mail: masters.stu@st.com
