

- ADC** – Analog-to-Digital Converter
- BAM** – Boot Assist Module
- CMU** – Clock Monitoring Unit
- CRC** – Cyclic Redundancy Check unit
- CTU** – Cross Triggering Unit
- DSPI** – Serial Peripherals Interface
- ECC** – Error Correction Code
- ECSCM** – Error Correction Status Module
- eDMA** – Enhanced Direct Memory Access controller
- FCCU** – Fault Collection and Control Unit
- FlexCAN** – Controller Area Network controller
- FMPLL** – Frequency Modulated Phase Locked Loop
- INTC** – Interrupt Controller
- IRCOSC** – Internal RC Oscillator
- JTAG** – Joint Test Action Group interface

- LINFlexD** – LIN controller with DMA support
- MC** – Mode Entry, Clock, Reset, & Power
- PBRIDGE** – Peripheral bridge
- PIT** – Periodic Interrupt Timer
- PMU** – Power Management Unit
- RTC** – Real Time Clock
- SEMA4** – Semaphore Unit
- SIUL** – System Integration Unit Lite
- SSCM** – System Status and Configuration Module
- STM** – System Timer Module
- SWG** – Sine Wave Generator
- SWT** – Software Watchdog Timer
- TSENS** – Temperature Sensor
- XOSC** – Crystal Oscillator
