

**ANDREA CUOMO**  
**Executive Vice President, Special Projects**  
**STMicroelectronics**

Andrea Cuomo is STMicroelectronics' Executive Vice President in charge of Special Projects, and has held this position since January 2012.

Cuomo joined SGS Microelettronica, a predecessor company to STMicroelectronics, in 1983, covering managerial roles in Product Management and Strategy, and rose to become VP for the Headquarters Region in 1994. In 1998, he created the AST group, a key organization for developing ST's system knowledge and advanced architectures. In 2002, Cuomo was promoted to Corporate VP, AST General Manager, and took on further responsibilities as Chief Strategy Officer in 2005. In 2008, Cuomo was appointed Executive VP, General Manager, EMEA Sales & Marketing and AST. From July 2010 to June 2017 he was the Executive Chairman at 3Sun, the photovoltaic JV between ST, Enel, and Sharp. From June 2015 to February 2018, Cuomo served as Chairman of the Governing Board at EU's ECSEL Joint Undertaking.

His board memberships include the Ospedale San Raffaele in Milano, the International Advisory Boards at the SDA Bocconi University in Milano, and at ESADE Business School in Barcelona, Spain.

Andrea Cuomo was born in Milan, Italy, in 1954, and studied Nuclear Science at the Polytechnic of Milan.
