We are creators and makers of technology

One of the world’s largest semiconductor companies

- **Over 50,000 employees** of which **9,000+** in R&D
- **$16.1 billion** revenues in 2022
- **Over 80 sales & marketing offices** serving over **200,000 customers** across the globe
- **14 main manufacturing sites**
- Signatory of the United Nations Global Compact (UNGC)
- Member of the Responsible Business Alliance (RBA)

As of December 31, 2022
Global presence

- Research & Development
- Main Sales & marketing
- Front-end manufacturing
- Back-end manufacturing
ST stands for

**life.augmented**

Everywhere microelectronics makes a positive contribution to people’s lives, ST is there.
Our value proposition for all stakeholders

For our shareholders
- Return value in line with our objective
- Sustainable and profitable growth

For our customers
- Provide differentiating enablers
- Independent, reliable & secure supply chain

For all stakeholders
- Committed to sustainability
- Our values: Integrity – People – Excellence
Our technology starts with you

At ST, we create technology that starts with

**You**

Our employees

Our customers

Our partners
Where you find us

Making **driving** safer, greener, and more connected

Enabling the evolution of **industry** towards smarter, safer, and more efficient factories & workplaces

Making **homes & cities** smarter, for better living, higher security, and to get more from available resources

Making everyday **things** smarter, connected, and more aware of their surroundings
Trends and markets
Our strategy stems from key long-term enablers

**Smart Mobility**
Helping car manufacturers make driving safer, greener, and more connected for everyone

**Power & Energy**
Enabling industries to increase energy efficiency everywhere and the use of renewable energy

**Cloud-connected Autonomous Things**
Transforming every area of our lives and the objects we use with billions of cloud-connected autonomous things for personal, business, and industrial applications
ST provides innovative solutions to help our customers make driving safer, greener and more connected for everyone.

- Increase safety for road users & driver comfort and convenience.
- Affordable, desirable electric vehicles
- Cleaner, greener Internal Combustion Engines (ICE)

Road crashes carry a high human toll and cost $500B+ every year.

Electric vehicles sales* from ~10 million in 2021 to ~30 million in 2025.

ICEs in over 80% of new vehicles produced 2021-2025.

* Excluding Mild Hybrid EV
ST technology and solutions enable customers to increase energy efficiency everywhere & support the use of renewable energy sources

- Rising demand for and usage of electrical energy
- Decrease carbon emissions to reduce global warming impact
- Increase use of renewable energy

- Over 30% global electricity demand increase from 2020 to 2030
- 45% CO₂ emission reduction from 2010 to 2030 to limit warming to 1.5°C
- Electrical energy from renewal sources from ~10% in 2020 to ~20% in 2030

Sources: IEA, IPCC, BP
Cloud-connected Autonomous Things

ST provides sensors, embedded processing, connectivity, security and power management, as well tools and ecosystems.

- More than 20 Billion IoT connected devices per year by 2025
- IoT security services market over $12 billion by 2025
- Four billion cellular IoT connections by 2025

Source: ABI, Ericsson, GSMA
Our strategy
We address four end markets

- Automotive
- Industrial
- Personal electronics
- Communications equipment, computers & peripherals
## Our strategic objectives

<table>

Products and technologies
Differentiated technologies are our foundation

- **MEMS** for sensors & micro-actuators
- **FD-SOI CMOS**
- **FinFET** through Foundry
- **Analog & RF CMOS**
- **eNVM CMOS**

- **Smart Power: BCD** (Bipolar - CMOS - Power DMOS)
- **Discrete, Power MOSFET, IGBT**
- **Silicon Carbide, Gallium Nitride**
- **Vertical Intelligent Power**
- **Optical sensing solutions**

**Packaging technologies**
- Leadframe – Laminate – Sensor module – wafer level
Our products and solutions enable customer innovation

- Dedicated Automotive ICs
- Analog, Industrial & Power Conversion ICs
- GP MCU & MPU, Secure MCUs, EEPROM
- Discrete & Power Transistors
- MEMS & Optical sensing solutions
- ASICs based on ST proprietary technologies
## Dedicated automotive ICs

### Automotive MCUs
- Scalable single- and multicore MCU solutions
- Targeting cost-sensitive to highly advanced applications
- Comprehensive development ecosystem

### ADAS solutions
- CMOS image sensors
- Image signal processors
- Radar transceivers
- V2X communication solutions

### Infotainment & telematics
- Makes the driving experience more fun and comfortable
- Outstanding audio fidelity and positioning accuracy in every condition
- Secure smartphone mirroring
- Safe vehicle connectivity with wide set of peripherals

### Automotive analog & power
- Compliance with rigorous automotive requirements
- Design-ins at automotive suppliers and car makers
- Wide portfolio of analog, power and digital products
- VIPower* HSDs, LSDs & H-bridges and LED drivers
- Complete system kit solutions

* registered and/or unregistered trademarks of STMicroelectronics International NV or its affiliates in the EU and/or elsewhere

Key power technologies & packages for: Car electrification, power management, motor control

| • Gallium Nitride (GaN) on silicon power and RF transistors |
| • LDMOS & DMOS RF power transistors |
| • Silicon-Carbide MOSFETs |
| • High- and low-voltage silicon power MOSFETs (STripFET*, Planar & MDMESH*) |
| • IGBTs. Power bipolar transistors |
| • ACEPACK* power modules. SLLIMM* intelligent power modules |

* registered and/or unregistered trademarks of STMicroelectronics International NV or its affiliates in the EU and/or elsewhere
## Analog, industrial & power conversion ICs

### Power management
- AC/DC & DC/DC converters
- Analog & digital controllers
- Linear voltage regulators
- LED drivers & lighting ICs
- Intelligent Power Switches
- Battery management ICs
- Voltage reference
- eFuses
- Wireless power ICs
- PoE ICs
- Photovoltaic ICs
- Rad-hard products

### Analog products & Specific ICs
- Operational amplifiers
- Comparators
- Current sensing amplifiers
- Filtering & signal conditioning
- Interfaces & transceivers
- Reset and supervisors
- Audio ICs
- Switches
- Rad-hard products
- Medical ICs
- Smart Metering ICs

### Motor control
- Brushed DC motor drivers
- Brushless DC motor drivers
- Stepper motor drivers
- MOSFET & IGBT gate drivers
- Galvanic isolation ICs
- GaN drives

### Connectivity solutions
- Bluetooth® Low Energy ICs
- Sub-1 GHz transceivers, Sigfox-compatible devices
- LoRaWAN® technology
- Short-range RF transceivers
- Powerline communication ICs
- IO-Link

### Concerning Connectivity
- Bluetooth® Low Energy ICs

## General-purpose MCU & MPU, secure solutions & NFC

### General-purpose 32-bit MCUs & MPUs
- STM32* 32-bit general-purpose microcontrollers (MCUs) and microprocessors (MPUs)
- 1000+ compatible devices
- Arm® Cortex® cores
- Maximum integration
- Extensive ecosystem

### General-purpose 8-bit MCUs
- 8-bit general-purpose microcontrollers (MCUs)
- Dedicated series for mainstream, ultra-low-power and automotive
- Rich ecosystem

### Secure solutions
- Secure MCUs
- eSIM, eSE, NFC for mobile
- eSIM, eSE and TPM for industrial, IoT and automotive
- Secure payment solutions
- Authentication and Brand protection solutions

### NFC & Memory
- NFC / RFID Tags
- Dynamic NFC tags
- NFC / RFID Readers
- UHF Readers
- High-performance & high-endurance EEPROM

* registered and/or unregistered trademarks of STMicroelectronics International NV or its affiliates in the EU and/or elsewhere
### ASICS based on ST proprietary technologies

ST offers strategic independence and product differentiation to ASIC customers through three key enablers:

- Advanced manufacturing technology platforms
- Worldwide design resources and advanced IP
- ST’s Independent Device Manufacturer supply chain

<table>

Manufacturing and R&D
We offer quality, flexibility, and supply security
We are drivers of your innovation

Advanced R&D centers around the world for close collaboration with operations, customers, and partners

- 9,000+ people working in R&D and product design
- ~12% of revenues invested in R&D in 2022
- ~200 active R&D partnerships
- Open innovation with startups in 15 Proof of Concept centers
- 70 startups engaged in our programs in 2022
- ~19,500 active and pending patents
- ~600 new filings in 2022
Recognized as a top global innovator

STMicroelectronics recognized as Top 100 Global Innovator 2022

STMicroelectronics recognized as one of the Top 100 Global Innovators 2023 by Clarivate
We are partners with our customers worldwide

Over 80 sales offices in 35 countries
We serve more than 200,000 customers

Top 10 Customers* 2022
- Apple
- Bosch
- Continental
- SpaceX
- HP
- Tesla
- Huawei
- Vitesco

Unified worldwide account management tailored to each account to provide global coverage and service

Standard process, reporting & follow-up in Sales & Marketing worldwide
Differentiated approach by type of customer

Our commitment to quality
Quality is embedded in our culture

Our quality culture is driven by a commitment to continuously improve, a prevention mindset & our STRIVE for Excellence values

S - Strength
T - Teamwork
R - Resilience
I - Innovation
V - Value
E - Expertise

Find out more at www.st.com/quality
Quality is a key business enabler for ST

Our quality vision

Elevate ST quality to the highest levels, positioning it as a valuable asset for our customers

Our quality mission

Ensure ST products meet the highest quality and reliability requirements of customers in the markets we address

Our quality strategy

- Deploy a mindset and culture of quality
- Focus on quality performance at our customers
- Innovate for advanced quality and reliability
- Drive structured result-driven improvement programs
2021-22 Quality Review

An annual status of the ST Quality organization, infrastructure and initiatives that demonstrate our commitment to continually strive for excellence.

Sustainability
Sustainability has been engraved in our business model and culture for 30 years

1987 Creation of ST. Business conduct & ethics policy
1993 First environmental policy
1995 First environmental decalogue
1997 First environmental report, ISO 14001, EMAS
2000 Signatory of the UNGC 10 principles
2001 Creation of ST Foundation
2002 Establishment of a reforestation program
2007 Conflict Minerals program
2011 Sustainable Technology program
2012 ISO 50001 energy management
2014 5th Environment, Health & Safety Decalogue
2016 ISO 22301 Business Continuity 1st certification
2019 2025 CO₂ goal achieved
2020 Commitment to be Carbon Neutral by 2027*
2021 New Sustainability Charter published
2023 26th annual Sustainability report

*on scope 1 & 2 and partially scope 3
Our approach to sustainability

Sustainable technology

We create technology for a sustainable world

- Designing responsible products and technologies
- Managing the lifecycle of our products in sustainable way
- Responsible minerals sourcing
- Eco-design devices - power-efficient & low-carbon

Sustainable way

We prioritize people

- Ensuring people health, safety, & well-being
- Role model in labor & human rights
- Fostering diversity & inclusion
- Offering great employee experience

We protect the planet

- Committing to carbon neutrality*
- Leading environmental management system
- Reducing water usage & addressing local scarcity risks
- Reducing waste & promoting a circular economy

Sustainable company

We generate long-term value for all stakeholders

- Embedding risk management
- Monitoring and developing the extended supply chain
- Promoting STEM in all our ecosystems
- Monitoring & transparently reporting our progress

*on scope 1 & 2 and partially scope 3
Suppliers
We require our suppliers to implement the Responsible Business Alliance (RBA) standards and encourage ISO and OHSAS certifications to address ethics, social, environmental, health, and safety risks.
We participate in the Responsible Minerals Initiative.

Environment
We deploy programs to reduce our direct and indirect greenhouse gas emissions from all our operations, including Perfluorinated Compounds (PFCs), which have a very long atmospheric lifetime and high global warming potential.
We minimize the environmental, health and safety risks related to the chemicals and materials used in the manufacturing process, by basing the selection, handling, and substitution on the precautionary principles.
We are continually reducing our water footprint through reuse and recycling and all our wastewater is treated before being discharged into the environment.
We reduce, reuse, recycle or recover as much of our waste as possible, rather than sending it to incineration or landfill.

People
We ensure the health and safety of our employees through advanced management systems and certification.
We implement our Code of Conduct and the RBA standards in all our sites to mitigate our ethics and labor and human rights risks and carry out regular assessments and audits in all our production sites.

Products
Through our Sustainable Technology program we design products systematically taking into consideration the environmental impact of the device during its whole life cycle, including raw materials, transportation, manufacturing, usage and end of life.
Our Sustainable Technology program aims to develop responsible products which:

- improve our social and environmental footprint at every stage of the product life
- have the greatest positive impact on the planet and people in the end-application

Product compliance (Conflict-mineral free, RoHS)

Social & Environmental programs (RBA code of conduct, Water, Waste, Energy & Climate Change, Chemicals)

Eco-design devices (power-efficient & low-carbon)

Responsible applications (planet-friendly & human-welfare)

Manufacturing

Usage

End of life

Raw materials

* registered and/or unregistered trademarks of STMicroelectronics International NV or its affiliates in the EU and/or elsewhere
We will be carbon neutral by our 40th anniversary

Milestones

• Compliance with the 1.5°C scenario by 2025 – recognized by SBTi
• Carbon neutral on scope 1 & 2 and partially scope 3 by 2027
• Sourcing 100% renewable energy by 2027
• Collaborative programs and partnerships for carbon neutrality throughout our ecosystems

In 2022

• 62% renewable energy
• 45 projects saving an additional 24GWh of energy
Sustainability reporting
26th edition

Transparency – Reliability – Comparability

• Economic, environmental and social performance
• Our long-term sustainability ambitions and goals
• Program progress
• Focus on site initiatives
• Stakeholder inclusiveness
• Aligned with international reporting standards and disclosures:
  Global Reporting Initiative (GRI)
  Sustainability Accounting Standards Board (SASB)
  Task Force on Climate-related Financial Disclosures (TCFD)
  EU taxonomy
• Content and data verified by a 3rd party
