

Qualification Certificate

REPORT NUMBER: MPA-MCD_QA06-026

QUALIFICATION TYPE: PRODUCT TRANSFER

QUALIFICATION IDENTIFICATION

The purpose is to confirm the good reliability of the devices processed and assembled in the following conditions:

- Wafer Fab location: Rousset R8 (8 inches)
- Process name: CMOSM8
- Part Number: STR71x
- LQFP64 10x10x1.4
- LQFP144 20x20x1.4
- LFBGA64 8x8
- LFBGA144 10x10

CONCLUSION

This qualification was performed in accordance with the General Product Qualification Procedure (STMicroelectronics specification SOP2610) and the AEC-Q100 specification.

The STR71x passed qualification testing and the production is now authorized in Rousset wafer fab.

The full product reliability qualification report is available on request.
