everynet

REDWAN®

THE LoRaWAN™ NETWORK IN MÉXICO.

*Many cities in **México** are now ready to explore for **IOT Solutions.***

LoRaWAN™

LONG RANGE

Up to
15 km range

SAFETY IN DATA TRANSMISSION

Authentication process

LOW COST

An alternative to
expensive technology

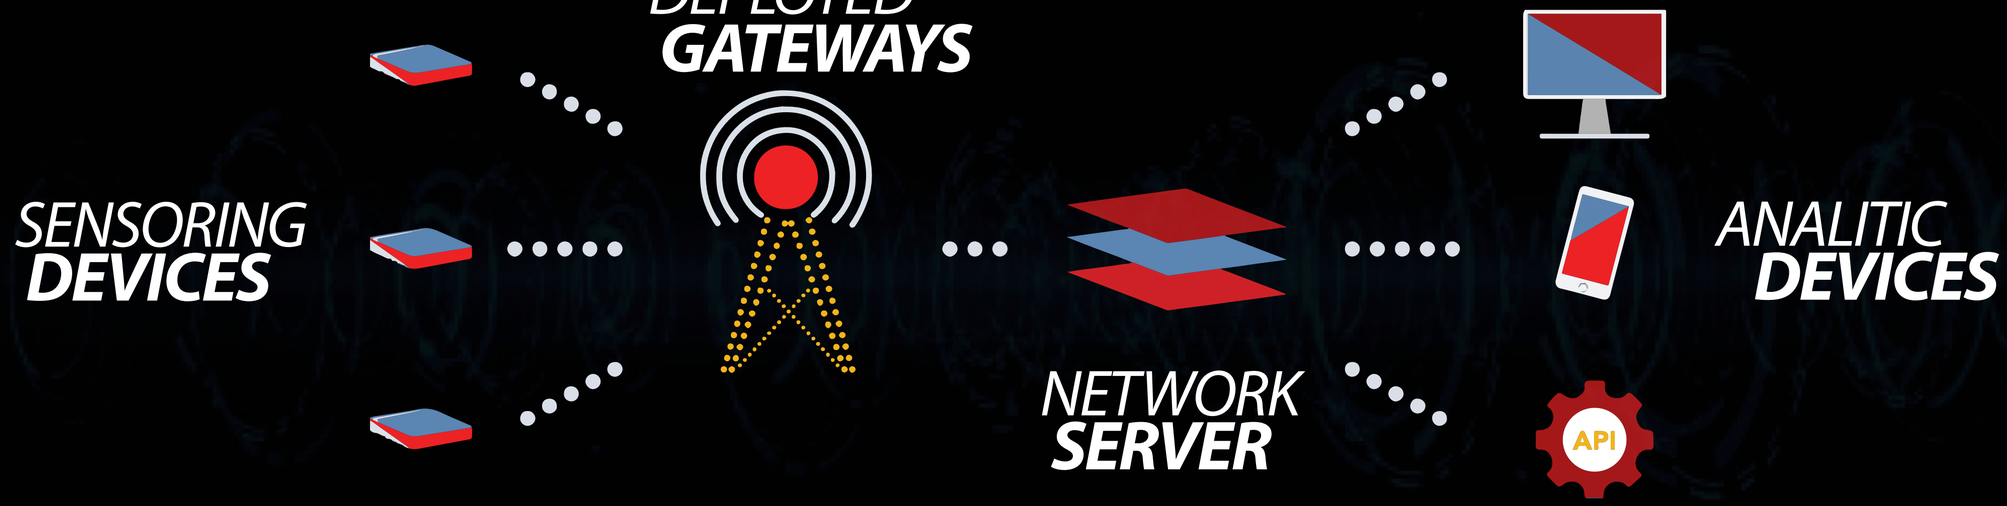
LONG LIFETIME

Up to 10 years
of battery life

REDWAN®

HOW IT WORKS?

LoRaWAN™



POWERED BY

everynet

REDWAN®

builds and operates robust Radio Access Network (RAN) infrastructure with technology partner

LoRaWAN™

Around the world.

58 Countries with operations

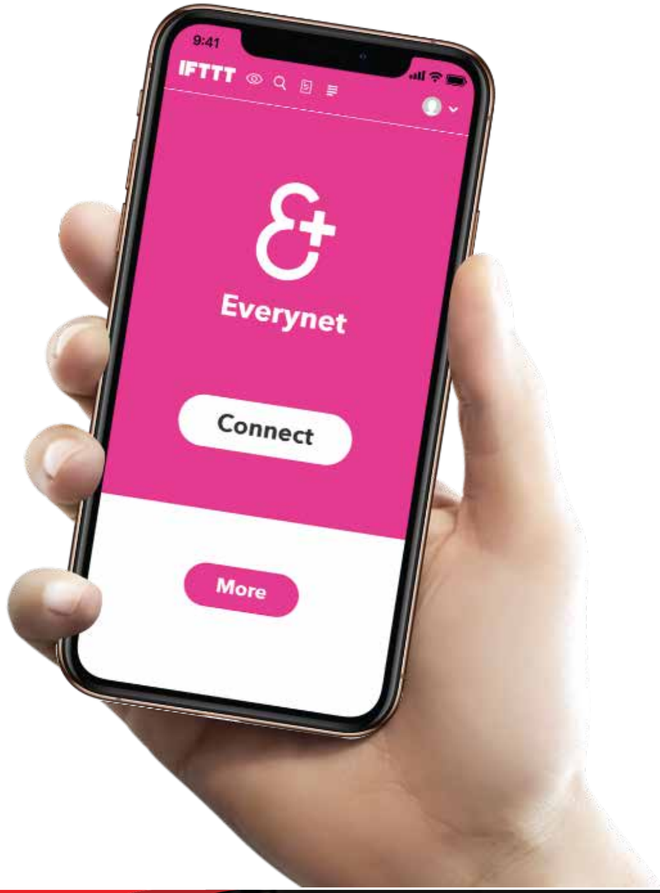
121 Network Operators

142 Countries with Deployments

REDWAN®

everynet

Connect your world with
industry leading LPWA intellectual property,
a flexible, intelligent platform
and a world leading partner IoT Eco-system.



Technologic Partner

REDWAN®

Global Growth through Partnership

Everynet focuses on its core competency, **Low Cost IoT Technology**, and partners with industry-leading companies in each segment of the value chain to execute its vision.

A Tech Partner with a Global Team

About Us

REDWAN®

Our vision is to provide connectivity to support the rapid growth of the Internet of Things in México. Helping industries optimizing their processes and increasing their productivity.

THE LoRaWAN™ NETWORK IN MÉXICO.

REDWAN®

DEPLOYMENT ROADMAP

THE LoRaWAN™ NETWORK IN MÉXICO.

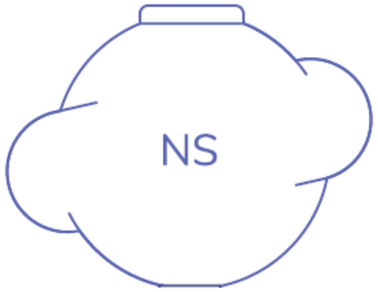
Helping the world make sense of everything

Network Operations

24x365 NOC & support

RAN Core

Deployments & coverage wholesale



Network Server Core

Carrier-grade with massive scalability

IP Labs

Tech licensing & ref designs

Application Enablement

Eco-system development

Everynet is the first Service Provider deploying **LoRaWAN** networks on a global scale – we are a pioneer in solving the IoT challenges of today through technical and commercial innovation and partner collaboration.

Infrastructure

everynet

CloudCell 4G Gateway

REDWAN®

- *Multiple Redundancy, to mantain network uptime in the harshest of enviroments.*
- *Designed for rapid deployment & easy maintenance, minimising Opex & TCO.*
- *Supports advanced monitoring groups, integrated to Everynet 24x365 NOC.*

*Highly - Reliability **LoRaWAN Gateway**, available exclusively to Everynet Neutral Host Partners.*

Key Benefits

REDWAN®

CARRIER GRADE

Best in class technology platform, backed by documented processes.

FULL SUPPORT

Fully resourced network operations & deployment training teams

ULTRA LOW-COST

Best in class technology platform, backed by documented processes.

Infrastructure

THE LoRaWAN™ NETWORK IN MÉXICO.

Our Services

REDWAN®

CONNECTIVITY OF DEVICES TO THE LORAWAN NETWORK

INTEGRATION OF APPS, WEBPORTALS & ERP

THE LoRaWAN™ NETWORK IN MÉXICO.

Uses Cases

Transforming Business Needs into Competitive Differentiators.

REDWAN®

Retail Security + Monitoring

Fleet & Cargo Tracking

Agriculture

Asset Monitoring

SmartIndustry (Manufacturing)

SmartCities

Tower Asset Monitoring

Utilities

REDWAN®

everynet

Network Operating Center

Fully resourced , operating 3 shifts to provide 24x365 monitoring of network health.

Hosted in our tier4 data centre in Milan, with satellite NOCs within Network Countries.

Provides a direct feedback loop to our R&D teams, to improve product design for maximum resilience and minimunt TCO.

*Our commitment to **carrier-grade** operational procedures is perfectly embodied in our NOC.*
