Features

- Ready-to-use printed circuit board (PCB) including:
  - 45 mm x 75 mm (ST25DV_Discovey_ANT_C1)
  - 18 mm x 24 mm (ST25DV_Discovey_ANT_C6), 13.56 MHz single layer inductive antenna etched on the PCB
- ST25DV04K dual interface EEPROM
- Mates with ST25Dx_DISCOVERY_MBOARD connector
- Energy harvesting output ($V_{OUT}$) with a 10 nF capacitance filtering circuit

Description

The ANT-1-6-ST25DV antenna reference kit is a ready-to-use kit containing two boards, each of them featuring a ST25DV04K Dual Interface EEPROM IC connected to an RF etched antenna on one side, and to an $I^2C$ bus on the other side.

The ANT-1-6-ST25DV antenna kit allows system designers to evaluate the ST25DV04K performance, capabilities, and to get started with their design.

To demonstrate the energy harvesting function, the ANT-1-6-ST25DV can be used in conjunction with the DEMO-CR95HF-A demonstration board.

The ANT-1-6-ST25DV PCB files can be downloaded from www.st.com.
1 Associated PC software

The ANT-1-6-ST25DV kit is supported by the PC software and by the Dual Interface EEPROM tool that allows to configure and control the energy harvesting. This software is available on www.st.com.
2 Federal Communications Commission (FCC) and Industry Canada (IC) compliance statements

2.1 FCC Compliance Statement

2.1.1 Part 15.19
This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

2.1.2 Part 15.105
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference's by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

2.1.3 Part 15.21
Any changes or modifications to this equipment not expressly approved by STMicroelectronics may cause harmful interference and void the user’s authority to operate this equipment.

2.2 Formal notices required by the Industry Canada ("IC")

2.2.1 Compliance Statement
This device complies with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation.

2.2.2 Declaration de Conformité
Le présent appareil est conforme aux CNR d’Industrie Canada applicables aux appareils radio exempts de licence. L’exploitation est autorisée aux deux conditions suivantes: (1)
l'appareil ne doit pas produire de brouillage, et (2) l’utilisateur de l’appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d’en compromettre le fonctionnement.
