

Power MOSFET product finder mobile app for tablets and smartphones

Features

- Parametric search on multiple criteria
- Easy access to the key product parameters
- Part number search for direct access to a specific product
- Download of datasheets for off-line consulting
- Direct access to sampling and buying
- Management of favorite part numbers
- Product features sharing via e-mail or social media
- Available on Android™ or iOS™ operating systems
- Available on Wandoujia app store for Chinese users

Description

The ST-MOSFET-FINDER is a mobile application available for Android or iOS offering a user-friendly alternative to searching through the Power MOSFET online product portfolio, driving the user along a smooth and simple navigation experience using portable devices. The parametric search engine allows the user to rapidly identify the right product that best fits its application. The ST-MOSFET-FINDER can be found on Google Play, App Store and Wandoujia.
